NEW! INTRODUCING

PROGRAMMABLE TV GAMES

WITH THE GIMINI ECONOMY "8600" GAMES SYSTEM

The ORBIT GIMINI PROGRAMMABLE Video Game System is the latest technology in TV Games. By plugging in a cartridge to the master Gimini Controller, the player can choose a game, ANY GAME! The games vary from the TEN games SUPERSPORT through to the exciting graphics games of WARFARE etc.

The games system just plugs into the aerial socket of any b&w or colour TV – no adjustments and NO – video games will not harm your TV.

A home video entertainment centre, that the whole family can enjoy.
